

FRIENDSHIP BRACELET

YOU WILL NEED:

An adult to help you | three sheets of A4 card in different colours
scissors | a paper cutter if you have one | a pencil | a ruler | glue

HOW TO MAKE IT:

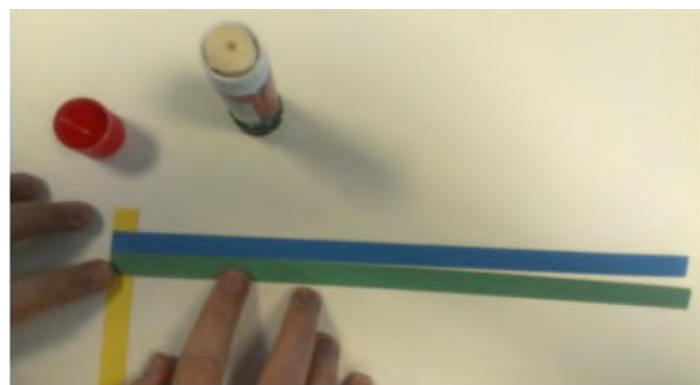

1) Along one of the longest sides of your card, measure a centimetre in and draw a line making a centimetre strip.

2) Cut this out and repeat with all three pieces of card.

3) Place one piece of card straight up in front of you, with the other two pieces glued over the top, leaving a small piece at the end, as in the photo.

4) Fold the top bit of paper down and glue securely (the yellow end in the photo). Now begin plaiting your card by carefully folding the top strip of card (the blue piece here) over the middle strip (the green piece here).

FRIENDSHIP BRACELET

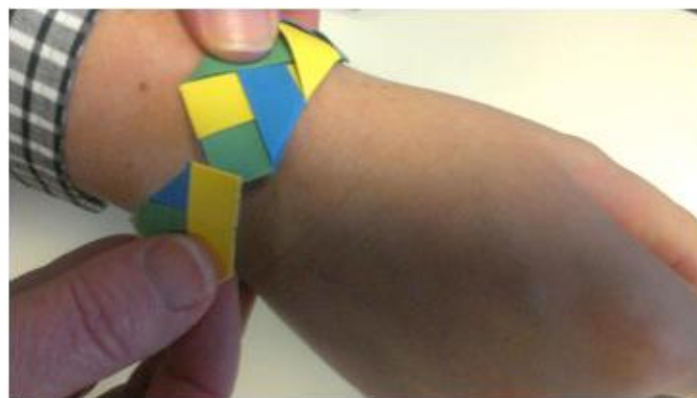

- 5)** Now fold the yellow piece of card over the middle strip (blue in the photo). Continue folding the outside piece of card over the middle strip to create your plaited bracelet.

- 6)** When you get to the end, carefully tidy away the end pieces by gluing them down and cutting off any longer pieces.

- 7)** The friendship bracelet fits together on your wrist by carefully slotting one end into the folds at the other end (it is much easier if someone else does it up for you).

- 8)** Your friendship bracelet is ready to send to your sponsored child!
